Mr Frizzell advised members of Ms Ghafoor’s long association with the University prior to becoming an independent member of Court and noted that Mr Rae, elected from the support staff of the University, had been with Abertay since 2001 and had worked in a variety of roles. The Chair, on behalf of Court, congratulated Ms Amanda Boyle on having been made an OBE and Dr Maria Hinfelaar on having been appointed Vice-Chancellor of Glyndŵr University.

56  DECLARATION OF POTENTIAL CONFLICTS OF INTEREST

The Chair reminded members of their responsibility to indicate if they had, or could be perceived to have, a conflict of interest in relation to the items for discussion. None was declared.

MINUTES OF THE MEETING OF THE UNIVERSITY COURT HELD ON 16 DECEMBER 2015 – UNRESERVED AREAS OF BUSINESS

Court approved the above minutes, submitted as Enclosure 33, as an accurate record.

MATTERS ARISING FROM THESE MINUTES

Court noted that there were no matters arising which were not already on the agenda.

SFC FUNDING FOR 2016/17

The Principal provided Court with an update on Scottish Government funding for higher education for 2016/2017, noting that the Scottish Funding Council had, as yet, not released the main grant allocation information. Court noted that in December 2015 the Deputy First Minister had announced a reduction of 3.3% in funding for HE with protection of funding for research. Professor Seaton advised members that, although the Scottish Government had announced that it would borrow for capital spending, it seemed likely that the overall cut could be 5-6%.

Court noted an increase of £50,000 for research arising from the Abertay’s improved performance in the REF but was advised that a change in teaching funding methodology would result in a reduction of £300,000 in teaching income. Professor Seaton further noted a liaison meeting between Universities Scotland and the SFC, which had raised concerns that a significant reduction in funding for the modern universities would have a substantial impact on teaching and outreach and therefore, by extension, on the social mission of those universities.

The Vice-Principal (University Services) reminded members that the allocation, once received, would cover only the fiscal year to 31 March 2017 and not the university financial year to 31 July 2017. Furthermore, it was likely that a spending review would take place following the Scottish Government elections in May 2016.

Thereafter, Court noted that the funding allocation would be transmitted to members once received and analysed by the institution.

STAFF ENGAGEMENT SURVEY 2015

The Principal introduced the above report on responses to the Staff Engagement survey, which had taken place between 28 September and 30 October 2015 in conjunction with Capita. The paper, which had been considered by the People, Health & Equality Committee, provided a brief summary of the report findings and the proposed management response, as well as the full survey report which had already been made available to staff on the intranet.
Members noted that the response rate to the survey had been high at 77%, an increase of 4% over the staff survey held in 2013 and that the results had revealed both indications of greater satisfaction than in 2013 and a number of areas for improvement. In particular, the percentage of staff who considered the University ‘a good place to work’ had dropped by 6% and the number of staff who believed that communication within the institution was effective had also declined. Court was advised that academic staff were less happy than support staff but that this was also the case across the sector as a whole.

Professor Seaton apprised Court that the report had been discussed by the Executive Group and the Senior Management Group in December 2015, prior to publication on the intranet, and an action plan agreed. This had commenced with an open meeting attended by approximately 150 staff members who had shared thoughts on the findings of the survey with the Principal and the Director of Human Resources and Organisational Development. A series of focus groups was planned to identify ways in which the University might improve, including discussing the report with the trade unions through the Joint Liaison Group. These would be led by the Vice-Principal (Academic).

Members expressed concern regarding levels of staff dissatisfaction and sought assurances that management intended to respond timeously. Professor Olivier advised Court that a proposed action plan would be discussed by the Executive Group prior to commencing a programme of wide and open participation and consultation with as many staff as possible.

In discussion, members noted that the survey had been conducted at a time of significant change within the University and following a number of redundancies, which would have undoubtedly contributed to staff concerns but that, overall, the significant downward trend in staff morale was a matter of concern for Court, who would continue to monitor this closely.

Thereafter, Court noted the report.
