

## BA with Honours in Sport and Management – 2016 entry

**Duration of programme:** 4 years (where students join the programme in year 1)

**Award on successful completion:** Bachelor of Arts with Honours

**Location of delivery:** Abertay University, Bell Street, Dundee

**Composition of the programme:** 120 SCQF (Scottish Credit and Qualifications Framework) credits in each academic year, delivered in modules of 20 credits each, with 3 modules taken in term 1, and 3 in term 2 each year. In years 1 and 2, students have the opportunity to take modules outside their main subject. The final year includes a 40 credit independent project.

**Contact hours and workload:** Each academic year typically requires 1200 hours of student effort; on average across the 4 years of this programme, 20% of that time is in lectures, seminars and similar activities; the remainder is independent study.

**Assessment methods:** The programme is assessed by a combination of examination and coursework. Some modules will involve both practical assessment and work-based assessment.

**Additional costs:** Sport students have to cover the cost of the PVG scheme in order to be able to work with children and vulnerable adults (cost £59 for a new application, £19 for renewal). They also have to purchase Abertay branded sports kit for use in practical sessions and placements. The cost of the basic kit is £84. All costs stated are correct at April 2016.

**Academic staff:** This programme is delivered by staff in the Division of Sport and Exercise Sciences in the School of Social and Health Sciences, and the Division of Business and Management in Dundee Business School. Staff profiles can be viewed at

The Business Environment
Fundamentals of Coaching
Law
Coaching & Learning 2
Corporate Communication
Business in Society
Communications & Creative Design
International Business & Management

### **Developments in the discipline:**

The two disciplines of sport and management are continually evolving. While core modules are unlikely to change the curriculum within all sport and management modules is expected to evolve over time. This keeps the curriculum relevant and maintains a real world connection as new policy, employability and professional approaches come to the fore. These new developments are readily incorporated into the curriculum and module content without having to fundamentally change the module structure.
