

Super Superstructures Activity Card: Helipad Tower Challenge

Challenge

Using 6 sheets of A4 paper, a paper plate and 6 paperclips, your team has to design and build a tower, as tall as you can, with a helicopter landing platform (helipad) on the top.

Rules

- The base of the tower must not be attached to the floor or the table in any way
- The tower must be as tall as possible
- The helipad must be horizontal and capable of supporting the helicopter
- The tower must be stable (must not fall over) without the weight
- The tower must be stable (must not fall over) with the weight
- The helicopter must not be attached to the helipad in any way
