

## Why choose Abertay? Hear it from our Ethical Hacking and Computing Alumni...

“Abertay is a university that gives its students the chance to really make a lasting impression on their development and skillset, in a wonderful city steeped in culture.”

Dan Mosca

Consultant

PA Consulting

BA (Hons) Ethical Hacking and Countermeasures (2014)

“The Abertay careers department was invaluable. They taught me how to network and actually where to look. That's how I got my job offers right out of university.”

Ciaran Gallagher

Senior Consultant

Wipro Digital

BA (Hons) Ethical Hacking and Countermeasures (2012)

“My degree definitely helped give me the confidence to apply for the role at the BBC. Specifically, the mobile app development module helped me gain hands-on experience building apps in a way that really rewarded experimenting and trying out new ideas. Similarly, languages and compilers, a module which introduces many different concepts utilised by different programming languages, and delves into how compilers might reason about those concepts, has established a really good framework with which to view all the different languages and technologies I've since encountered.”

**Ben Newcombe**

Graduate Software Engineer

BBC

BSc (Hons) Computing (2017)
