

Why choose Abertay? Hear it from our Food and Nutrition Alumni...

“My first experience of working within the food industry was through a placement opportunity that was given to me through my course in 3rd year. I started at the bakery as a Technical Assistant and then I got taken on to work through the summer. I then secured the role of Technical Manager at the end of the summer.”

Samuel Ceolin

Technical Lead

Mrs Unis Spicy Foods Ltd

BSc (Hons) Food and Consumer Sciences (2016)

“Without my degree from Abertay, I would have been at a major disadvantage against other candidates in the application and interview process for the job I have now. My degree has opened up a lot of opportunities for me, and I would not have achieved a first class degree without the lovely staff who taught me and made me feel confident that I could do it.”

Madison House

Specifications Officer & HACCP Team Leader

OP Chocolate

BSc (Hons) Food Product Design (2015)

“Abertay was 100% instrumental in helping me get to where I am now. I loved it. It was very down to earth. It was a serious course – you had to get the work down – but you were always coached rather than pressured into doing things.”

Linzi Pucino

Food Editor

The River Group

BSc (Hons) Food and Consumer Sciences (2012)
