“My time at Abertay definitely helped me pursue the Fulbright scholarship. It helped me exceed the academic criteria and taught me how think critically and discover my specific areas of interest. Before University, I knew I wanted my career to involve ‘helping people’, I just didn’t know how.”

“Abertay’s Sociology program has provided me with invaluable opportunities to discover and develop many aspects within society. I now have the opportunity to be part of an organisation which works to break down barriers for the most vulnerable of people. My time at Abertay has only enhanced my passion for Sociology and I take away a degree as well as lifelong connections.”
